Worst Business Text Ever

By Paul B.

As a student this was one of the most difficult books to get through. I used this book in my senior capstone course for administration. It addressed many topics that were covered in prior classes, I learned very little from reading the book as I had much of the information pounded into my head in the numerous classes prior to my capstone. This book is very wordy and exhaustive to the point that torture may be a better option than reading. Relevant but hard to read and very few pictures.

The right textbook and the right price!

By Rhett C. Butler

I needed this to complete a college course. The college bookstore was wanting \$92.00/new for this in an e-book and I found it here for 63% less in hard copy! The condition was listed as "Good" but it arrived in "Like New" with all pages, no markings or notations on any of the pages.

I personally much prefer a hard copy/printed book to an e-book. It's easier to go right to the page needed and find the information faster than waiting for pages to load.

Need textbooks without the high costs? This is the place to find them!
