By annettedale

I am a teacher and am tutoring a high school student in preparation for the CAHSEE test. The flashcards are easy to carry around and study just about anywhere and anytime. It's so nice to know that all the information he needs to know to pass the test is right there! The cards are easy to read and understand! I really appreciate the simple explanations and useful examples.

Flash cards to get you where you need to go

By ONE

If you need to take this test, you already know that passing it can really help you get where you need to go in the future. Without this test behind you and in a good light, your job options will be very few and far between. In order to pass the test, you need to study and you want to review as much as you can. These flash cards can help you get where you need to be in order to pass the test with confidence. You can take the cards with you anywhere and study them on the go or you can sit and study for hours. Whatever you do, just know the cards and you'll be fine.
