saved me in my second semester!

By Gamacintosh

If you hate reading 5-10 pages of a case brief in order to get one rule of law, this book is for you! I'm the type of person who just needs the facts, so when I'm reading a case brief all I'm thinking is, "get to the point!" or "how many words are you going to use in order to tell me that it had to be a material breach?" If that is you, or if you are having problems understanding the point of the case brief and how it fits into the big picture, trust me this book is for you. I've tried several others and they don't compare. BTW these books are set up to mirror (keyed) your case books so make sure you get the right one.

excellent supplement

By Lee Gutschenritter

This supplement clearly describes all the major topics covered in a corporate law class. I found it especially helpful in distinguishing between duty of loyalty/conflict of interest issues and duty of care/business judgment rule situations. All the rules are clearly laid out and show the reader when the various tests should be applied. If you are overwhelmed by the large amount of information you're expected to master in a BA/corporations course, this supplement will help you organize that information and give you some perspective on how to manage all the info you're expected to know.

I highly recommend this book.

Also, in case it's not obvious, there's nothing on agency and partnership.

As expected

By Jaime R. Carlo Casellas

As expected, the Property Law Outline by Emanuel is an excellent source for the black law theory on property law. It is most useful in developing your own outline or flash cards to study for the bar. I recommend that before you delve into your case book, you peruse the pertinent section in Emanuel. It will give you the insight you need to understand the cases better.
