Must have for Moab off-roading.

By JCF Ohio

This book is a "must have" for any off-road trip to Moab. It is well written, very detailed and you can get their SD card that goes with it for your Garmin GPS, second to none. Worth every penny and more!

Amazing!

By Marie S.

My husband and I recently purchased a side x side. We are new to the Moab trails and this book was a huge

help! We went on many of the trails in the book. We found the rating system to be wonderful in selecting trails. The trail description was great and the pictures were nice too. I would recommend this book to any person who is planning on riding in Moab - whether you are in a Jeep, ATV's, motorcycles, or a UTV.

Excellent resource.

By Potatowalker

This is an excellent guide book for anyone who is interested in exploring the multitude of scenic and exciting roads and trails in the area surrounding Moab. The trail descriptions are detailed and thorough, and the intro to the book gives you a good idea of how to interpret the trail ratings. GPS waypoints for trailheads and features are useful as well. This book will help you enjoy exploring the Moab area in a 4x4 without the hassle of navigating & eliminating the countless spur and dead-end trails that spider-web the area. His website has a lot of good resources to compliment this book as well as his other books. The spiral bound edition is holding up well so far and it's seen a good bit of action already. I recommend this book to anyone who thinks they might want to see where all those roads lead - because what you find is better than you imagine!
