Very Practical Resource

By Chinedu Udeh

This book has drastically changed the way I approach developing my teachers. In the book, Drago-Severson offers a tool to understand the different ways that adults create meaning. This sounds totally out of the realm of schools, but by better understanding my teachers I can develop my staff (and myself for that matter) in a more efficient way. My favorite part of the book are the protocols for engaging teachers and other adults in

my building.

This book is a wonderful resource that transformed my thinking about the adults that I work with. As educators, we are filled with love and compassion for students, but we don't bring that same understanding to adults. This book helped me to see adult learning in a whole new way and inspired me to think of the ways that I can inspire change in others as well as change myself!

So repetitive. I could barely keep my eyes open reading it. Just a rehash of current research with her own "twist" on concepts by renaming them.
