It's been a long time coming! At last, the lean, green sex machine gets his very own title!

Taking place almost immediately after the events in *Felinoids #3*, *Locus #1* finds our handsome green protagonist on the run from the Sektan Authorities and in hiding on the planet Suktamimus.

Locus has broken the most sacred of Sektan laws, and now his life is on the line. Of course the authorities eventually catch up with our hero, and now they intend to take him back to Sekta Prime where he will be punished for his crimes.

What follows is possibly the most amazingly creative sex Patrick has ever illustrated, coupled with a powerful and very current narrative that will resonate in almost every reader. This book also gives us our first look at how Locus and Camili-Cat originally met in an intimate and explicit look at their years on the dangerous streets of Darria.

Fans have been clamoring for this title for years, and Patrick Fillion delivers the goods with absolute panache and relish. It's clear that he loves Locus and completely threw himself into this title to make it the most amazing book it could be. An absolute triumph, this book is an incredible, out of this world sexual escapade.

Green has never been sexier!

By Randy E. Halford

Patrick Fillion--the "Stan Lee of gay comics"--finally gives us one of his most sexiest creations his own comic book title, and deservedly so. Locus--who's made appearances in other Class Comics titles--gets his own full length story here. And like with any Fillion project, the wait is long; but the payoff is more than worth it!

Blending sci-fi adventure with gay erotica, our hero--who's the embodiment of what it would be like to have sex with the most alluring, well-built alien in the cosmos--is on the run from Sektan Authorities after refusing to give in to Sektan Laws. Thus hiding away on another planet, Locus tumbles from one perilous plot to another as he's first gang-raped (authorities "rescue" him at the last moment), has a tryst with a closeted commanding officer, and then, in a horror-themed but tantalizing climax, is sentenced to die before a cave filled with life-sucking creatures.

Intertwined with the plot are Locus' flashbacks to things past: His discovery & love of the equally provocative Camillicat & other comic book adventures.

Fillion's artwork is vibrantly crisp & colorful, and the writing is clever & engaging, with some nice twists.

PLEASE, Mr. Fillion---give us more Locus!

more research needed

More violent than I expected or enjoy. Other than the story line the comic has great color and drawings. I did not get the idea that it was this type and degree of violence from reading about it before I purchased it. I shall return, exchange or sell it.

Nice SciFi

By Brad Stanley

nice story and great work on the graphics. I do wish they would have more stories, always waiting for the next installment
