NEUROLOGIE (FRENCH EDITION) BY JEAN CAMBIER, MAURICE MASSON, CATHERINE MASSON, HENRI DEHEN PDF

Les avancées rapides survenues dans tous les domaines des neurosciences imposaient une nouvelle édition profondément révisée de l'Abrégé de Neurologie. Chaque chapitre a été revu. Les remaniements les plus importants portent sur les chapitres relatifs à la pathologie : maladie de Parkinson, SEP, démences, pathologie vasculaire cérébrale, maladie d'Alzheimer, anomalies du développement.

Toutefois, l'esprit dans lequel avait été rédigé cet ouvrage – clair, pratique et complet – a été conservé : la place accordée à la neurologie clinique et à la neuropsychologie a été maintenue, de même que le souci d'intégrer la sémiologie dans l'organisation structurelle et physiologique du système nerveux. Les stratégies diagnostiques ont été reconsidérées à la lumière des progrès de l'imagerie, de l'électrophysiologie et de la neurogénétique. La thérapeutique a été mise à jour dans l'ensemble des chapitres. L'abrégé de référence entièrement mis à jour

- Les troubles neurologiques selon une analyse sémiologique reposant sur l'anatomo-physiologie et intégrant les progrès de la neuropsychologie et de la neurogénétique
- Les affections neurologiques les plus fréquentes et les thérapeutiques les plus récentes
- Le diagnostic neurologique à la lumière des progrès de l'imagerie médicale et des explorations électrophysiologiques de la neurogénétique.

- Sales Rank: #2675651 in eBooks
