Numerous diagrams help illustrate the step-by-step instructions in this easy-to-follow walkthrough of basic numerology

By Midwest Book Review

Numerology: Reveal Your True Character and Destiny is a user-friendly guide to the inquisitive, prophetic, and spiritual practice of numerology. Chapters walk the reader through how to create a name diagram, find which energy lines affect one's character, determine whether changing one's name will have profound repercussions, measure one's compatibility with people who have other names, peer into the future, and more. "I have avoided the esoteric aspects of numerology intentionally, preferring to make the subject accessible to those who wonder whether deductions can be made from a name. Names are mirrors, that is all. Maybe your mirror is a little cloudy. You can clean it, to see your reflection better, or you can get yourself a new mirror." Numerous diagrams help illustrate the step-by-step instructions in this easy-to-follow walkthrough of basic numerology principles.

Not for Beginners

By GVBFan

My initial impression is that the layout/format of the book is confusing. Decided to go with a numerology book that is labeled for beginners. I do plan on referring back to this book at some point though.
