A very excellent item to own...

By A Customer

This book should be read by every woman and every straight man. A very helpful guide that says systematically what you wish had been explained (in such an enjoyable way) from the beginning. It covers the very simple to the more advanced, is a very easy and enjoyable read, has lots of pictures and diagrams, and also features quotes from people giving insight from personal experience. Although female sexuality can be a difficult thing to lasso and understand, this book simplifies it and makes it very...enjoyable. As I said, a very excellent item to own.

Decently Informative

By Stephanie Schultz

When I found this book in the store, I had a hard time stopping reading it. I was too embarrassed to buy it that day, but I returned a few weeks later and decided to go for it.

Reading it cover to cover doesn't take very long, which in some ways is good, and in others is bad. I like the fact that it describes (and sometimes there's a picture to go with it!) several non-traditional positions, what kind of person it is good for, and what it all does.

I did not, however, find the "orgasm-ing together" section very informative, mostly because I didn't like the idea of different stages. Not everybody has a partner they can see frequently and can therefore test that method out. There's got to be a better way than saying, "I'm level 8! How about you, darling?!" Something like that totally kills the mood, so I was disappointed that the ONE part of the book that I REALLY wanted to learn more about wasn't very thorough.

It's an enjoyable read; one that I'll lend to friends or have a partner read ;)

Definitely not a magic bean...

By Adrianna

After the great reviews on here and other places I purchased this book. I was more than disappointed. I read the whole thing in one sitting (less than an hour) and there was absolutely no advice given that hadn't been given before in even such places as Glamour or Cosmopolitan magazine. In addition the British wording of much of the book makes it a tad awkward for the average American reader. Add to that blatant grammatical issues and misspelled words, and you end up with a book that not only isn't giving you new information, but also which is frustrating just to read.

Honestly the premise of this book is that if you haven't had an orgasm then apparently you aren't psyching yourself up enough for it. Her approach is far too simplistic, her descriptions are lacking any actual guidance (basically all she says is, do what feels good until you come, umm duh!), and the whole book just was overall disappointing. There are far better books that this out there. If you are just looking to become even more orgasmic than you already are, this might help you, but if you've never this is not the place to look for help.
