A sizzling good book

By Judy

The Maverick Prince by Catherine Mann is another sensational story by a compelling author.

Shannon Crawford's world had come crashing down when her husband took his own life. He left her to deal with a scandal and a young son to raise. She was very cautious when she started seeing Tony Castillo, he was a shipping magnate but seemed so down to earth.

Imagine her shock that Tony was really Antonio Medina a royal prince.

Tony Castillo fled his structure world many years ago and built a good life for himself. When the truth of his real identity hit the tabloids, he has to protect Shannon and her son from the fall out.

Tony whisks them to his father's island hideaway till the furor dies down. But he also wants to get back into Shannon's good graces. The tropical setting proves an ideal place for romance and fun filled days.

Tony has to work double time to gain Shannon's trust after more gossip hits the tabloids. Can these two lovers get back on track or will the gossips win?

The Maverick Prince is another gem by a favorite author of mine. You can always depend on a complete

story no matter the format. Tony and Shannon have an unconventional courtship and their chemistry is off the charts. The characters are fully developed and ones that you fall in love with. I am looking forward to the next book in this family saga.

The Maverick Prince, a book that I loved reading.

By Kathie Leeper

I loved it, and would recommend that people buy it. It is a love story with a few twist but, I loved it. Most women would love to have a man love them like this and the wealth that he had, would be a bonus. I will re-read this book because it was well written and the story line kept you hooked.....
