Great reference book

By Ulrika Eriksson

The Tao of Travel-Enlightenments from Lives on the Road of Paul Theroux.

This book in soft leather binding (I think), with illuminated letters and ornaments and with a band attached to serve as a bookmark, made me so glad. It has a lovely font, Miller, and a drawn map of the world inside its book covers- A NEW AND ACCVRAT MAP OF THE WORLD - from 1626. This book contains mostly of passages and quotes from other books about travelling and not so much of Paul Theroux's. It's a great reference book. Freya Stark, Dervla Murphy - travel authors I must read!

Read the Tao of Travel slowly and in smaller bits! Come back to it for inspiration to further travel reading!

A collection of travel writing

By Louis Derrico

Paul Theroux Celebrates fifty years of wandering the globe in this collection of the best writing from the books that shaped him s a reader and a traveler...."The Tao of Travel contains exerpts from the best of Theroux's own work interspersed with selections from travelers both familiar and unexpected.

This edition is beautiful and will look good on your bookshelf.

unbelievable

By Christopher G. Tenney

how paul theroux was able to put his name on this book as though it his own work, I will never know, It's a collection of quotes from other authors that seems to be thrown together in no particular order. The back of the cover says " a literary travelers handbook from one of the finest travel writers." Seriously this just irks me that he took other authors writings and posted them in a book and put his name on the cover.
