Teenage Angst

By Amanda Smith

Waiting Games is a sequel to the popular book Sooner Or Later. I first read both books when I was 14, and re-read them until they were tattered. Jessie's struggle with first love is both funny and touching. The author's insight into the mind of a teenager, who is both worldly and childlike, is magical.

Picks up where sooner or later left off...

By A Customer

When I first purchased this book, I was expecting a little more insight into Jessie and Michael's relationship after they declared their love for one another in the sooner or later book. I felt that this book did not go into enough detail about the ups and downs of Michael and Jessies reationship, nor did we really read enough about Michael's feelings at all. The big "love scene" was disappointing to say the least and from there Michael's transformation from a great guy to a waffling jerk took place. The Michael I love from the movie SOL is not in this book nor will you find him in the third installment, Now or Never. I think the movie version has really spoiled me because Rex Smith's portrayal of Michael is totally different. He is maturer, sexier and you could really believe in the love he feels for Jessie.

10 of 11 people found the following review helpful.

I read this book when I was 15...

By Leigh Morton

..because it was the sequel to "Sooner or Later", which was an awesome little movie and book. In this sequel, Jessie and Michael consummate their relationship and then Michael leaves to go on tour...leaving Jessie worried about being pregnant for the remainder of the book. I kind of found it disturbing because Jessie is only 14 in the book, and you start to see that Michael is not the Prince Charming as portrayed in "Sooner or Later"...the story is very real and interesting and I would recommend it, however.
