1 of 1 people found the following review helpful.

Finally, this classic european comic comes to English (and the US)

By Michael R. Brown

Finally, the whole XIII series is being publishing in English (and in the US). Cinebooks has taken on the task of printing this series, with a new volume every 3-4 months. And they are coming to the US a little later after being published in the UK. At this time, 6 volumes are out.

The first 5 volumes comprise one over arching arch. Yes, you need to grasp the idea that each volume is part of a large storyline. The overall storyline is about the man known as "XIII", but within that storyline are smaller arches. Think of some of the serielised tv series of late. Don't expect each volume to be totally stand along.

Volume 2 picks up from volume 1, with "XIII" trying to figure out who he is by searching for his wife, Kim Rowland, from clues found in vol 1, where he was told he was former US Army Captain Steve Rowland. In this volume, he mets Army General Carrington, who knew Rowland and was in command of the special operations unit called SPADS. He returns to Rowland's hometown, where he mets his rich, but invalid father, Jeremie Rowland, and his new young wife. XIII is framed for the murder of his father and uncle Matt. He escapes and is able to find Kim Rowland, who is revealed to be XVII in the conspiracy, and reveals that XIII is NOT Steve Rowland. He is then captured, tried, and convicted of the murders and sentenced to prison.
