Amazon.com Review

Quick, what's the correct way to open a wine bottle? Bonus round: what are the 13 grape types permitted in Chateauneuf-du-Pape?

Whatever your score on the above, you're bound to enjoy the Windows on the World Complete Wine Course. Subtitled Millennium Edition, this 14th annual update is again authored by Kevin Zraly, founder and teacher of the Wine School, begun in 1976 as an offshoot of New York's Windows on the World restaurant. On 200 colorful and clutter-free pages full of maps, wine labels, and sidebars full of facts and anecdotes, Zraly acts as your Sherpa through eight classes. Chapters 1 through 3 circumnavigate the white wines of France, the New World, and Germany; 4 through 8 explore the reds of France, California, Iberia, Australia, and South America, concluding with a section on champagne, port, and sherry.

As wine guru, Kevin Zraly is opinionated, knowledgeable, and patient. His skill at talking novice wine devotees off the ledge is especially evident in the chapters on Burgundy and Germany, with their notoriously confusing wine labels. Study Zraly's careful parsing and annotation of a German label and you'll be able to tell the region from the town from the vineyard the next time someone hands you a Mosel-Saar-Ruwer Ürziger Würzgarten Riesling Spätlese.

But any book that calls itself a "Complete Wine Course" sets the Barbera pretty high--sometimes too high. Oregon and Washington States share one page while New York State rates two and a half. Certainly a millennium edition could scare up another paragraph for the red-hot Pacific Northwest. And two chapters following the classes--"Creating an Exemplary Restaurant Wine List" and "Award-Winning Wine Lists"--seem little more than padding.

But these are small quibbles about a handsome and approachable volume that will take you from Amarone to Zind-Humbrecht with confidence. Whether you're a true cork dork or someone who doesn't know their Alsace from their elbow, you could certainly do worse than pressing your nose up against these windows on the world. --Tony Mason

From Publishers Weekly

The silver anniversary version of this perennial bestseller by legendary wine personality Zraly still emphasizes consumer enjoyment and user friendliness in the pursuit of education and appreciation. The DIY

edition of his now-legendary class tackles the wide world of vini- and viticulture with a sense of humor, erudition and modesty, and includes expanded material on wine regions beyond France, Italy and California. The 25-year benchmark provides frequent opportunity to look back over changes in grape growing and winemaking over the past quarter century. While the book's frequently busy layout may reflect changes in traditional media and information acquisition—large sections are laid out like FAQs—it allows room for a broad range of information without oversaturation. Tasting work sheets and self-administered questionnaires are included, while sidebars include lighter material, such as wine-related quotes and other assorted trivia. Among the handy visuals are wine-growing maps and wine labels included not merely for aesthetic appreciation but for useful comparisons in areas with complicated classifications like Burgundy. Appropriate for professional and layperson alike, the volume continues to be one of the most indispensable titles of its kind. (Oct.)

From Library Journal

Zraly, founder and teacher of the Windows on the World Wine School, presents the 14th update of his popular guide to the world of wine. Originally published in 1985, Zraly's book was designed for students, which is reflected in the treatment of each chapter as a class: "white wines of France," "red wines of California," and so on. A loose question-and-answer format prevails, and Zraly also provides a generous sprinkling of entertaining sidebars and informational tidbits. Even collections with Philip Seldon's *The Complete Idiot's Guide to Wine* (Alpha, 1996) or Ed McCarthy and Mary Ewing-Mulligan's *Wine for Dummies* (IDG, 1998) should consider Zraly's book. Each of these titles has its own strengths. Zraly offers more detail on Chilean and Argentinean wines, while the other two titles offer information on Portuguese wines not found in Zraly's book. For the restaurant owner or wine steward, Zraly also offers information on creating a wine list. Recommended for medium and large public libraries or any academic library where culinary arts titles are collected.

Enjoying the book so far, but none of the video codes work

By Brandon Eley

Still reading the book but one thing I am finding VERY frustrating is none of the QR codes (or the Bitly addresses below them) are functional. They all go to error pages. I'm hoping the publisher sees this review and gets them fixed so readers can watch the videos. I will check them again and update my review when I'm done reading the book.

By Jennifer O'Neil

I just completed my L1 Sommelier certification and this book is really helpful at laying down the basics for anyone who wants to learn more about wine. I love Kevin's story (see Chapter 1) and the margins are packed with great facts, it's simply brimming with information but doesn't feel overbearing at any point. I will need more in-depth books to get to the next level but, this is an excellent starting point to lay a broad foundation of knowledge before diving into very specialized topics. I have plotted out a series of personal tastings over the next 8 weeks using Kevin's book as a framework. Very helpful, indeed!

QR codes missing in hardcover, no matter since video and pronunciation links don't work anyway...

By John Penumbra

Ordered the hardcover edition. None of the promised QR codes are printed in the book. None of the video or pronunciation links work. These features would have made the book far more useful as an intro to wine. I suppose as a bare-bones introduction to wine I suppose it's okay, but there are better for that purpose, such as MacNeil's Wine Bible or Hugh Johnson's World Atlas of Wine. I find the graphics eye-salad, long lists, sidebars and stats hodge-podge to be distracting and annoying.
